Hello Artiom,

Thank you for contacting OSF support. We aim to respond to emails in 48-72 hours.

If you would like to provide feedback on the new user interface please use this [FORM](#).

To limit the time required to resolve your issue, please provide as much information as possible including:

- *a URL for the project/registration you are having issues with
- *screenshots of the issue
- * your OSF user ID and the ID of your project/registration/preprint
- * the date/time you saw the issue
- * the browser and version you're running
- * any error messages

You can also browse our Guides (<https://help.osf.io/>) to see if your question has already been answered. You can check the status of our services at <http://status.cos.io> and subscribe to updates.

To add additional comments, reply to this email.

Thank you for reaching out to the OSF support team! We understand the frustration that can arise from account issues and want to assure you that we're here to help resolve them.

If you received this email, it means that we need your assistance in investigating your account. Please help us by providing more information through this form: [Account Disabled or Falsely Flagged as SPAM reporting](#). If we don't receive your form submission, we won't be able to investigate the issue. Your input is invaluable as we work to improve our spam detection systems.

Rest assured that your case will be reviewed promptly within 48 to 72 business hours. In the meantime, if there are any additional details or concerns you'd like to share, please don't hesitate to write back to OSF support. We're committed to ensuring a smooth experience for all our users and appreciate your cooperation in resolving this matter.

Thank you for your understanding and cooperation.

How would you rate my reply?

Hello,

Could you please unblock the account?
btw, what is the reason for blocking? I have not put anything to the OSF platform yet or?

Thnx!

Artiom Kovnatsky

Hello,

Thank you for reaching out to the OSF support team! We investigate reported cases of OSF users being accidentally flagged or deactivated on a case-by-case base. If you have an account or material that has been flagged as SPAM or deactivated please report your case here: [Account Disabled or Falsely Flagged as SPAM reporting](#). Cases are reviewed within 48 to 72 hours.

Thank you,

How would you rate my reply?

Dear OSF Support Team,

Thank you for your response. As instructed, I have completed the "**Account**

Disabled or Falsely Flagged as SPAM" reporting form. Please find the screenshots of the submitted form attached to this email for your records.

Regarding this case, I require clarification on the following points to understand the nature of this "anomaly" in the context of my professional and scientific work:

1. **Pre-emptive Flagging:** My account was deactivated before a single file, project, or preprint was uploaded. On what technical or behavioral grounds was a clean account flagged as "SPAM" prior to any platform interaction?
2. **Origin of Action:** Was this deactivation triggered by an automated heuristic (algorithmic) or was it a manual intervention by a moderator?
3. **Procedural Delay:** Your initial automated response promised a resolution within 48–72 hours. Why did it take **over 38 days** and a second reminder to receive this follow-up?
4. **Institutional Standing:** Please note that this account represents a registered German business entity (**Wirtschafts-ID: DE405667512**). Treating a verified scientific and commercial ID as "SPAM" without cause or communication constitutes a significant disruption to my professional activities.

Under **GDPR (DSGVO) Article 15**, I also reserve the right to request access to the specific data and logic used to make this automated decision regarding my account status.

I look forward to your response within the stated 48–72 hour window.

Best regards,

Dr. Artiom Kovnatsky

Account Disabled or Falsely Flagged as SPAM

The OSF is always growing and developing. One of those areas of development is our efforts against SPAM. The OSF uses many fluid SPAM filters, taking countless factors into account, and are constantly evolving with trends in the dark world of SPAM. Unfortunately, because we take this seriously some actual OSF users can get caught in these spam filters. If you believe your account has been wrongly deactivated, please fill out this form below and we will investigate your account.
