Elon,

You're busy, so I'll get straight to the point.

Like you, I am a system-changer. I have just launched a global campaign to fundamentally reform our academic and democratic systems. The opening salvos are attached (**Email 1: The Problem & Confession; Email 2: The Solution for Science & Society**), which were sent via BCC to a wide range of media, academic institutions, and grant foundations.

My analysis shows that the forces against us are too powerful — they cooperate when it suits them (Democrats and Republicans, and sometimes EU/UK on shared issues). You've likely felt this firsthand. The only solution is to **target their Achilles' heel** with **scalpel-like precision** — and pray to God.

My "**Theorem on Preventing Catastrophes in Western Democracies**" mathematically proves the system's **Achilles' heel**: without an Independent Verification Mechanism (IVM), our democracy is merely a façade, incapable of preventing recurring catastrophes. This is not a political opinion; it is a logical necessity (if and only if).

The strategy, therefore, is to form a single-issue party with one sole purpose: **to implement the IVM**.

They cannot beat the math!

The strategy is to focus entirely 100%!!! on their **Achilles' heel**: a **vulnerability that is proven by a mathematical theorem** and is, therefore, logically **indefensible in any legitimate debate**.

The next is about the PR, and you are a **GENIUS IN THIS**. Use your talent to the fullest! The next step is to package this complex mathematical argument into simple, powerful metaphors that everyone can understand. We need the best communication specialists for this.

Proposal:

I have issued a 44-day ultimatum to Germany to begin implementing the IVM, or I

will, with God's help, create a single-issue **IVM Party (PUV) [30th October]** with my Theorem as a Political Program. I propose a synchronized action: **you issue a parallel 44-day ultimatum to Donald Trump to release the unredacted Epstein list, and we prepare to launch a parallel IVM party in the USA and also create a party PUV.** I believe that, from a strategy point of view, you should also call your party in a German manner, **PUV** (read X posts or I explain in person why); in the German style: **"Partei für Unabhängige Verifizierung"** (Party for Independent Verification).

This is not a conventional political fight. We will win by leveraging a suite of new tools I developed and by creating synchronous signals between DE and the USA (DE→USA and USA→DE with different combinations for rocking the boat/shaking the foundations as needed).

1. Operation "Build Bridges":

This operation is a public dialogue series designed to unite cultures, counter divisive narratives, and create massive public momentum; see attached pdfs.

To maximize the symbolic impact, we will officially announce this project on **October 3rd, German Unity Day**. This date is not a suggestion; **it is a deadline.**

By then, we must have a coalition of prominent thinkers and journalists ready to launch this historic multilingual dialogue. The goal is to finish the work Mikhail Gorbachev started—not by destroying physical walls, but by dismantling the far more dangerous walls in our minds. It will give us, with Gods help, a huge momentum.

2. A Mathematical Framework for "Conspiracy Theories":

A protocol to bring statistical rigor to contentious issues. My analysis of the Boeing whistleblower deaths and the "Clinton Body Count" already yields near-zero p-values, rejecting the "no intervention" hypothesis and forcing a new kind of investigation. **This is also a momentum, we need to demand an investigation WITH IVM!!!** Additional pressure for the ultimatum and our PUV party.

3. "Socratic Dialogue" with AI:

A method to deconstruct official narratives by rigorously testing them against facts and logic. I have already used this to demonstrate that the official Western narrative on the Ukraine war is fundamentally flawed. Additional **momentum, we need to demand an investigation WITH IVM** by saying that they lied to us and AI + Socratic dialogues proves this! Additional pressure for the ultimatum and our PUV party.

You can see the Socratic Dialogue method and its results here:

- **The Dialogue itself (Russian original is most complete; use Grok to translate):** https://www.artiomkovnatsky.com/ru/posts/beyond_obvious_ai_dialogue_4/

You saved free speech with X. This is the next logical step: fixing the political operating system itself. This is the real fight against a "1984" reality.

If this vision resonates, I am ready to discuss the strategy in detail.

God help us!

Sincerely,

Forgot, sorry.

As a practical demonstration of my **"Socratic Dialogue"** method, I am initiating a public, uncompromising intellectual duel on the defining issues of our time: **the Russia-Ukraine/NATO conflict and the foundations of modern Ukrainian ideology.**

The first challenge is directed at a key figure of Ukrainian nationalism, **Serhiy Sternenko**. The next will target a key gatekeeper of the Western narrative, German BILD journalist **Julian Röpcke**.

With this act, I am deliberately drawing the system's fire upon myself to expose its foundations of lies.

The full details will be published on my X profile this **Friday, September 19, at 19:19 CET**. The placeholder is live now: <https://x.com/ArtiomKovnatsky/status/1968273050773983577>

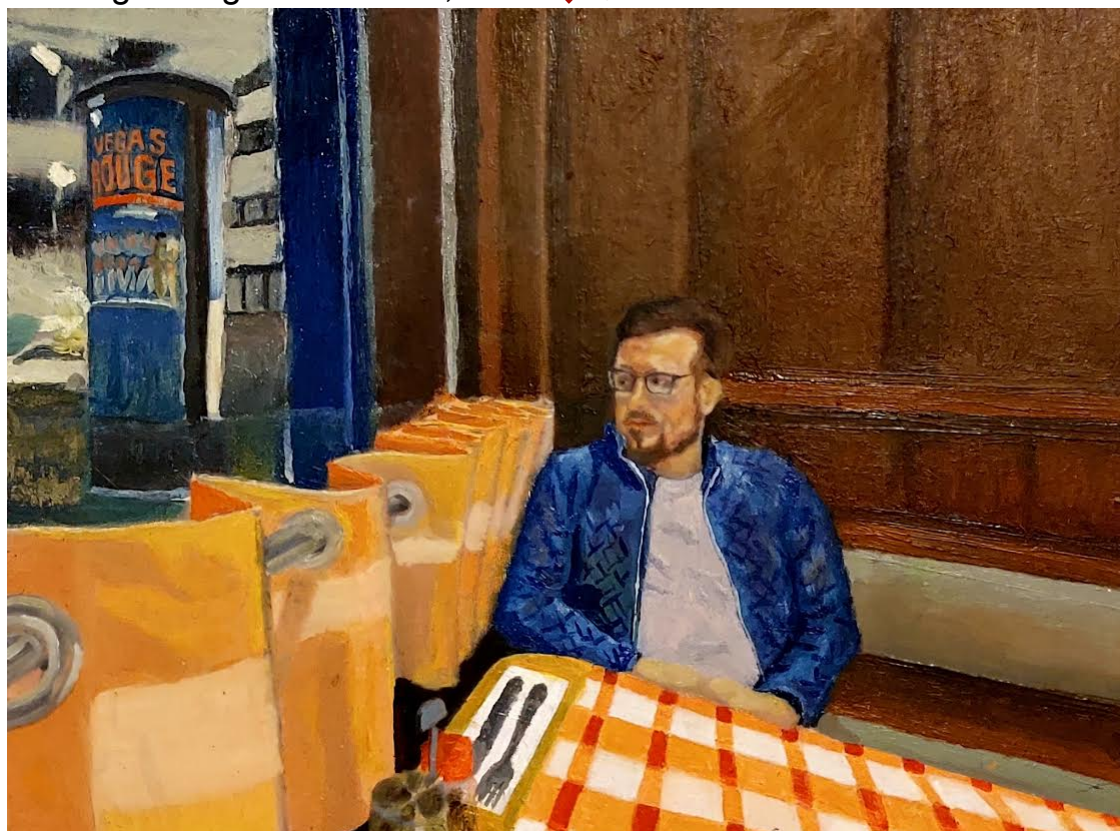

With your support—and with God's help—this will be a decisive blow to the propaganda machine!

Warm greetings from Berlin, Elon 🍷👉

Some of my paintings:

Behind Plato stands Socrates: a "dot" of Truth that can be pointed to, but never defined.

This painting, **"THE SYSTEM,"** depicts how the collective subconscious functions as the **"brain"** that guides Adam Smith's **"invisible hand"** to shape our society.

P.S.

A final question, Elon: Do you believe in God?

I know He exists.

God, please help us all.
