Your message to the Microsoft 365 group legal@github.com couldn't be delivered.

The group [legal](#) isn't set up to receive messages from skovnats@gmail.com.

skovnats@gmail.com
Sender

Office 365

legal
Action Required
Sender not allowed

How to Fix It

Try one or more of the following:

- If you're a member of the group, you might be registered with an email address other than skovnats@gmail.com. Resend your message using the email address where you received a welcome message from the group.
- Ask the group owner to add skovnats@gmail.com as a group member. If you don't know who the group owner is, contact the organization's customer service department for assistance.
- Ask the group owner to allow people outside their organization to send email to the group.

More Info for Email Admins

Status code: 550 5.7.193

The Microsoft 365 group, legal@github.com, is configured to reject messages sent to it from outside its organization -- unless the sender is a guest group member. skovnats@gmail.com isn't part of the organization, and it isn't a guest group member.

If you're the group's email admin or owner, check if the sender is a member of the group, but is registered under a different email address. Alternatively, the group owner, or email admin, can add skovnats@gmail.com as a guest member of the group.
