Dear ROLAND customer

Thank you for your message.

We have looked into the facts and the legal situation again, but unfortunately, we are not able to make any other decision even after reviewing this matter.

According to the insurance policy terms and conditions B.1.1., you are not covered by this insurance if you are acting in a legal capacity in connection with any of the following activities:
a commercial activity,
a freelance activity,
any other self-employed activity.

You mentioned that you are a freelancer.

If you are self-employed with a secondary activity, we refer to our first rejection letter. Based on your presentation you want compensation because your GitHub account was blocked for three weeks. This lack of access caused the immediate shutdown of your professional business website, so that you had a direct reputational damage and potential clients could not reach you. You claim a Störung des Geschäftsbetriebes and Eingriff in den Gewerbebetrieb. This is why no Nebengeschäfts applies.

According to your own account, it is clear that your main business is affected.

We understand, of course, that this is not the response you had been expecting. We hope, however, that you will understand our decision.

We hope that this explanation has been helpful.

If you have any further questions, please contact us by e-mail.

Kind regards
ROLAND Rechtsschutz-Versicherungs-AG
