Dear Editorial Team,

I am writing to formally authorize your redaction to use my personal data — and only my personal data — for the purpose of contacting German state authorities regarding the case files summarized below.

Authority	Reference
German Bundestag Petitions	Petitions-ID 204330 & Petitions-ID E-204159
Federal Constitutional Court (BVerfG)	Az. AR 2734/26
Berlin Administrative Court (VG Berlin)	Az. VG 2 K 202/26 & VG 2 L 201/26, dated 26.06.2026
Federal Data Protection Commissioner (BfDI)	Aktenzeichen DI3-722/002 II#0517, Dok. 66247/2026
Federal Foreign Office (Auswärtiges Amt) — Vorgang IDs	759bc4c4-387d-49e7-9e16-9a2b56c9da0e; e814bd1a-a632-4744-b326-9bce0a0d5bec; 8feca07e-720b-4e1c-ba35-baaba724c689
Foreign Office file numbers (GZ)	GZ R20-511.03 IFG 123-2026; GZ 505-511.03 IF 123-2026
Art. 15 GDPR (DSGVO) Access Request — Auswärtiges Amt	See full request file: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt

By its own written admission, the Federal Foreign Office routinely closes citizen submissions "unread" in its automated case-management system ("FACIL") to manage volume. Parallel proceedings are underway before the Berlin Administrative Court to compel disclosure of FACIL's processing metadata and system logs, after the ministry allegedly gave a court assurance not to delete data it had earlier told the applicant did not exist — a documented procedural contradiction.

I hereby grant your redaction formal authorization to use my legal name and case references to verify these files directly with the Federal Foreign Office VG Berlin, BVerfG, and BfDI. This authorization also extends to all logs, metadata, and related processing records obtained or requested under my Art. 15 GDPR (DSGVO) data access request to the Auswärtiges Amt, and to any other information relevant and connected to this case. Because I prefer to preserve my private way of life, I request that any public article refer to me only by my designated aliases: Dr. AK1984, NONAME404, skovnats, or "The REVIZOR" — unless using my legal name is operationally necessary for verification with authorities.

Any third party's personal data, initials, or family details appearing in the attached files must remain fully pseudonymized and redacted in any public coverage. Functional/institutional identifiers — such as case, docket, and process numbers, and role-based designations like "Referent 20" (an official function, not a named individual) — are not personal data and must be preserved in full, as they identify the responsible institutional function for accountability and follow-up inquiries.

Sincerely,

—

www.artiomkovnatsky.com | Founder S.V.E. | <https://zenodo.org/communities/sve>

I grant the recipient media outlet(s) named in the accompanying press letter full and unrestricted permission to use, process, and disclose my own

personal data only — including my name, contact details, and case-specific submissions — for the exclusive purpose of making formal inquiries, verification requests, and press inquiries to German state authorities and international bodies in connection with ANY and ALL of my formal requests, applications, and legal actions addressed to the Auswärtiges Amt (Federal Foreign Office) or related judicial bodies over the entire timeline of this case. The Federal Foreign Office has completely missed the statutory one-month deadline for the initial request submitted on 08.06.2026. Furthermore, my urgent follow-up and clarification submitted on 07.07.2026 regarding this deadline breach was met with nothing but an automated, generic template response from the FACIL system—leaving the statutory data access request entirely unanswered.

1a. Full Extension to System Metadata, Logs, and All Statutory Requests

This authorization explicitly and without limitation extends to ALL information, logs, system metadata, timestamps, routing codes, internal processing flags, and correspondence records obtained, requested, or generated under ANY of my statutory mechanisms. Recipient media outlets are explicitly urged to place a special emphasis on demanding all materials and logs connected to:

- The initial data access request submitted on 08.06.2026 (available at: <https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt>);
- The formal clarification and follow-up submitted on 07.07.2026 regarding the statutory deadline breach (available at: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Klage/07072026_OPA/AuswaertigesAmt-Art15-DSGVO);
- Freedom of Information requests under the Informationsfreiheitsgesetz (IFG);
- All historical case files (Vorgänge), system logs, and data streams within the "FACIL" system or any other internal case-management platform;
- All parallel and interconnected litigation records before the Berlin Administrative Court (VG Berlin) and the Federal Constitutional Court (BVerfG).

3. Strict Redaction of Third-Party Personal Data — OBLIGATION TO RETRACT

This authorization does not extend to the personal data of any third party. The recipient media outlet(s) are strictly required and legally obligated to ensure that all names, initials, specific family details, and other personally identifiable information belonging to third parties referenced in the underlying case files — including within any disclosed logs, correspondence, or metadata — remain fully pseudonymized, redacted, and hidden in any external use, investigation, or publication.

4. Absolute Preservation of Functional and Institutional Identifiers

For the avoidance of doubt, functional and institutional identifiers DO NOT constitute personal data under applicable data protection frameworks (such as the GDPR). They represent responsible institutional operations and accountability vectors. Therefore, they must be preserved and reproduced in full and unredacted form wherever they appear. These include, without limitation:

- All "Referent" or role-based designations (e.g., Referent 20, "Ref-20");
- All Vorgang-IDs, Aktenzeichen, GZ file numbers, and Petitions-IDs;
- All system-level identifiers appearing in automated logs or processing streams (e.g., process IDs, automation timestamps, routing codes).

5. Global Public Interest and Open-Access Authorization

I hereby grant full and unrestricted authorization to ANY individual or entity globally to access, request, and receive all files, logs, metadata, and case records connected to my submissions to the same extent as granted to myself or recipient media outlets.

The sole and absolute prerequisite for this release is a formal, written, or digital undertaking (in any language) stating that neither my personal data nor the personal data of any third party will be compromised or used for unauthorized purposes.

Any public disclosure, research, or publication resulting from this access must strictly ensure that all personal data is fully redacted, and that I am referenced solely by my designated aliases (Dr. AK1984, NONAME404, skovnats, or "The REVIZOR").

Upon execution of such a privacy-preservation undertaking, German state authorities are requested to fully disclose all relevant and connected documents under my statutory requests to the requesting party without further delay.

Important:

Please note that since 07.07.2026, the officials ARE ***LEGALLY*** OFFICIALLY INFORMED WITH ALL information presented in the archive SVE with all that follows.

Quote from the official letter on 24.06.2026:

Hinweis zur digitalen Beweissicherung: Die bereitgestellten Dokumente sind über die wissenschaftliche Plattform Zenodo (gegründet am CERN) sowie via Codeberg dauerhaft archiviert und durch eindeutige Hash-Werte verifiziert. Sollte es bei der Einsichtnahme dennoch zu technischen Problemen kommen, bitte ich um unverzügliche Mitteilung. In diesem Fall werde ich Ihnen innerhalb von 72 Stunden den Zugang zu jedem von Ihnen benannten Dokument in einer für Sie geeigneten Form ermöglichen.

Rechtliche Würdigung: Da alle technischen Barrieren durch diese Infrastruktur beseitigt sind, werde ich im Falle eines gerichtlichen Verfahrens davon ausgehen, dass der Inhalt der verlinkten Beweismittel Ihnen bekannt ist, sofern Sie nicht innerhalb von 5 Werktagen nach Erhalt dieses Schreibens schriftlich das Gegenteil begründen [spätestens jedoch bis zum 07.07.2026]. Ich betrachte diese Materialien hiermit als integralen Bestandteil unserer Korrespondenz und als amtlich vorgelegte Beweismittel.

Infrastructure Emergency Notice (Infrastructure Redundancy):

Since approximately 10.07.2026 at 18:00 CET (following several hours of transmitting Codeberg source links

to international human rights organizations), localized access issues and frontend script errors have been detected on the Codeberg platform. If your redaction or institution encounters any technical barriers accessing the primary repository, please immediately utilize the official encrypted and decentralized infrastructure mirrors below:

Subject: Infrastructure Alert — Case File Tampering Detected [WIP]

Dear Editorial and Legal Teams,

This is an urgent update. Within hours of my previous message, targeted tampering was detected across the decentralized mirrors of this case archive — consistent with unauthorized file-deletion attempts to suppress evidence.

Discrepancy identified:

- [perhaps; need more time to identify] Original version (GitLab): https://gitlab.com/opa-collective/sve/-/tree/master/Community/OpenLetters/DE/Klage?ref_type=heads
- Altered version (GitHub): <https://github.com/Opa-Collective/SVE-Systemic-Verification-Engineering/tree/master/Community/OpenLetters/DE/Klage>

Action requested: Please do not rely on a single source. Cross-reference both mirrors and pull the full logs from each to verify the uncorrupted state independently.

I view this intervention as further indication of how sensitive the FACIL audit data is. I am preparing a permanent, structural fix and will deploy it within the coming week.

Sincerely,
Dr. Artiom A. Kovnatsky

Subject: Infrastructure Alert — Case File Tampering Detected [WIP]

Dear Editorial and Legal Teams,

This is an urgent update. Within hours of my previous message, targeted tampering was detected across the decentralized mirrors of this case archive — consistent with unauthorized file-deletion attempts to suppress evidence.

Discrepancy identified:

- [perhaps; need more time to identify] Original version (GitLab): https://gitlab.com/opa-collective/sve/-/tree/master/Community/OpenLetters/DE/Klage?ref_type=heads
- Altered version (GitHub): <https://github.com/Opa-Collective/SVE-Systemic-Verification-Engineering/tree/master/Community/OpenLetters/DE/Klage>

Action requested: Please do not rely on a single source. Cross-reference both mirrors and pull the full logs from each to verify the uncorrupted state independently.

I view this intervention as further indication of how sensitive the FACIL audit data is. I am preparing a permanent, structural fix and will deploy it within the coming week.

Sincerely,
Dr. Artiom A. Kovnatsky

Subject: Press Authorization & Case Files — Bundestag Petition to Audit Foreign Office AI System "FACIL"

Dear Editorial Team,

I am writing to formally authorize your redaction to use my personal data — and only my personal data — for the purpose of contacting German state authorities regarding the case files summarized below.

Case Reference Overview

Authority	Reference
German Bundestag Petitions	Petitions-ID 204330 & Petitions-ID E-204159
Federal Constitutional Court (BVerfG)	Az. AR 2734/26
Berlin Administrative Court (VG Berlin)	Az. VG 2 K 202/26 & VG 2 L 201/26, dated 26.06.2026
Federal Data Protection Commissioner (BfDI)	Aktenzeichen DI3-722/002 II#0517, Dok. 66247/2026
Federal Foreign Office (Auswärtiges Amt) — Vorgang IDs	759bc4c4-387d-49e7-9e16-9a2b56c9da0e; e814bd1a-a632-4744-b326-9bce0a0d5bec; 8feca07e-720b-4e1c-ba35-baaba724c689
Foreign Office file numbers (GZ)	GZ R20-511.03 IFG 123-2026; GZ 505-511.03 IF 123-2026
Art. 15 GDPR (DSGVO) Access Request — Auswärtiges Amt	See full request file: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt

Core Facts of the Case

By its own written admission, the Federal Foreign Office routinely closes citizen submissions "unread" in its automated case-management system ("FACIL") to manage volume. Parallel proceedings are underway before the Berlin Administrative Court to compel disclosure of FACIL's processing metadata and system logs, after the ministry allegedly gave a court assurance not to delete data it had earlier told the applicant did not exist — a documented procedural contradiction.

Press Authorization

I hereby grant your redaction formal authorization to use my legal name and case references to verify these files directly with the Federal Foreign Office, VG Berlin, BVerfG, and BfDI. This authorization also extends to all logs, metadata, and related processing records obtained or requested under my Art. 15 GDPR (DSGVO) data access request to the Auswärtiges Amt, and to any other information relevant and connected to this case. Because I prefer to preserve my private way of life, I request that any public article refer to me only by my designated aliases: Dr. AK1984, NONAME404, skovnats, or "The REVIZOR" — unless using my legal name is operationally necessary for verification with authorities.

Critical Data Protection Requirement

Any third party's personal data, initials, or family details appearing in the attached files must remain fully pseudonymized and redacted in any public coverage. Functional/institutional identifiers — such as case, docket, and process numbers, and role-based designations like "Referent 20" (an official function, not a named individual) — are not personal data and must be preserved in full, as they identify the responsible institutional function for accountability and follow-up inquiries.

Full case documentation, legal filings, Art. 15 DSGVO request materials, and source logs are available at the Codeberg repository referenced in the attached authorization document.

Sincerely,

--
Regards | MfG
Dr. Artiom A. Kovnatsky
www.artiomkovnatsky.com | Founder [S.V.E.](https://zenodo.org/communities/sve) | <https://zenodo.org/communities/sve>

1. Scope of Comprehensive Authorization

I grant the recipient media outlet(s) named in the accompanying press letter full and unrestricted permission to use, process, and disclose my own personal data only — including my name, contact details, and case-specific submissions — for the exclusive purpose of making formal inquiries, verification requests, and press inquiries to German state authorities and international bodies in connection with ANY and ALL of my formal requests, applications, and legal actions addressed to the Auswärtiges Amt (Federal Foreign Office) or related judicial bodies over the entire timeline of this case.

The Federal Foreign Office has completely missed the statutory one-month deadline for the initial request submitted on 08.06.2026. Furthermore, my urgent follow-up and clarification submitted on 07.07.2026 regarding this deadline breach was met with nothing but an automated, generic template response from the FACIL system—leaving the statutory data access request entirely unanswered.

1a. Full Extension to System Metadata, Logs, and All Statutory Requests

This authorization explicitly and without limitation extends to ALL information, logs, system metadata, timestamps, routing codes, internal processing flags, and correspondence records obtained, requested, or generated under ANY of my statutory mechanisms. Recipient media outlets are explicitly urged to place a special emphasis on demanding all materials and logs connected to:

- The initial data access request submitted on 08.06.2026 (available at: <https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt>);
- The formal clarification and follow-up submitted on 07.07.2026 regarding the statutory deadline breach (available at: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Klage/07072026_OPA/AuswaertigesAmt/Art15-DSGVO);
- Freedom of Information requests under the Informationsfreiheitsgesetz (IFG);
- All historical case files (Vorgänge), system logs, and data streams within the "FACIL" system or any other internal case-management platform;

- All parallel and interconnected litigation records before the Berlin Administrative Court (VG Berlin) and the Federal Constitutional Court (BVerfG).

3. Strict Redaction of Third-Party Personal Data — OBLIGATION TO RETRACT

This authorization does not extend to the personal data of any third party. The recipient media outlet(s) are strictly required and legally obligated to ensure that all names, initials, specific family details, and other personally identifiable information belonging to third parties referenced in the underlying case files — including within any disclosed logs, correspondence, or metadata — remain fully pseudonymized, redacted, and hidden in any external use, investigation, or publication.

4. Absolute Preservation of Functional and Institutional Identifiers

For the avoidance of doubt, functional and institutional identifiers DO NOT constitute personal data under applicable data protection frameworks (such as the GDPR). They represent responsible institutional operations and accountability vectors. Therefore, they must be preserved and reproduced in full and unredacted form wherever they appear. These include, without limitation:

- All "Referent" or role-based designations (e.g., Referent 20, "Ref-20");
- All Vorgang-IDs, Aktenzeichen, GZ file numbers, and Petitions-IDs;
- All system-level identifiers appearing in automated logs or processing streams (e.g., process IDs, automation timestamps, routing codes).

5. Global Public Interest and Open-Access Authorization

I hereby grant full and unrestricted authorization to ANY individual or entity globally to access, request, and receive all files, logs, metadata, and case records connected to my submissions to the same extent as granted to myself or recipient media outlets.

The sole and absolute prerequisite for this release is a formal, written, or digital undertaking (in any language) stating that neither my personal data nor the personal data of any third party will be compromised or used for unauthorized purposes.

Any public disclosure, research, or publication resulting from this access must strictly ensure that all personal data is fully redacted, and that I am referenced solely by my designated aliases (Dr. AK1984, NONAME404, skovnats, or "The REVIZOR").

Upon execution of such a privacy-preservation undertaking, German state authorities are requested to fully disclose all relevant and connected documents under my statutory requests to the requesting party without further delay.

Important:

Please note that since 07.07.2026, the officials ARE ***LEGALLY*** OFFICIALLY INFORMED WITH ALL information presented in the archive SVE with all that follows.

Quote from the official letter on 24.06.2026:

Hinweis zur digitalen Beweissicherung: Die bereitgestellten Dokumente sind über die wissenschaftliche Plattform Zenodo (gegründet am CERN) sowie via Codeberg dauerhaft archiviert und durch eindeutige Hash-Werte verifiziert. Sollte es bei der Einsichtnahme dennoch zu technischen Problemen kommen, bitte ich um unverzügliche Mitteilung. In diesem Fall werde ich Ihnen innerhalb von 72 Stunden den Zugang zu jedem von Ihnen benannten Dokument in einer für Sie geeigneten Form ermöglichen.

Rechtliche Würdigung: Da alle technischen Barrieren durch diese Infrastruktur beseitigt sind, werde ich im Falle eines gerichtlichen Verfahrens davon ausgehen, dass der Inhalt der verlinkten Beweismittel Ihnen bekannt ist, sofern Sie nicht innerhalb von 5 Werktagen nach Erhalt dieses Schreibens schriftlich das Gegenteil begründen [spätestens jedoch bis zum 07.07.2026]. Ich betrachte diese Materialien hiermit als integralen Bestandteil unserer Korrespondenz und als amtlich vorgelegte Beweismittel.

Infrastructure Emergency Notice (Infrastructure Redundancy):

Since approximately 10.07.2026 at 18:00 CET (following several hours of transmitting Codeberg source links to international human rights organizations), localized access issues and frontend script errors have been detected on the Codeberg platform. If your redaction or institution encounters any technical barriers accessing the primary repository, please immediately utilize the official encrypted and decentralized infrastructure mirrors below:

Office 365

info
Recipient

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before

selecting **Send**.

Was this helpful? [Send feedback to Microsoft](#).

More Info for Email Admins

Status code 554 5.4.14

Typically this error occurs because the recipient email address is incorrect or doesn't exist at the destination domain. This can usually be fixed by the sender. However, sometimes the issue needs to be fixed by the recipient or the recipient's email admin. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. A forwarding rule can be configured by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow settings or MX records can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Mail loop detected - This error also indicates that the receiving organization's email settings are misconfigured, creating a mail loop when a message is sent to an address that isn't found in their directory. This usually won't disrupt mail flow for recipients that actually exist, but the recipient's email admin should fix the misconfiguration to reduce the chance of any other mail flow issues. A common cause for this loop is that the recipient's domain is configured as "Internal Relay" when it should be "Authoritative." Another common cause for the loop is that both the sender and recipient are part of the same organization, but the sender's mailbox is hosted by Office 365, while the recipient's mailbox is hosted on-premises, and an outbound connector from Office 365 to the on-premises email servers is missing or misconfigured. To fix this, the recipient's email admin should create a correctly configured outbound connector in Office 365 to route the message to the on-premises mailbox.

For more information and tips to fix this problem, see [Fix email delivery issues for error code 5.4.14 in Office 365](#).

Subject: Infrastructure Alert — Case File Tampering Detected [WIP]

Dear Editorial and Legal Teams,

This is an urgent update. Within hours of my previous message, targeted tampering was detected across the decentralized mirrors of this case archive — consistent with unauthorized file-deletion attempts to suppress evidence.

Discrepancy identified:

- [perhaps; need more time to identify] Original version (GitLab): https://gitlab.com/opa-collective/sve/-/tree/master/Community/OpenLetters/DE/Klage?ref_type=heads
- Altered version (GitHub): <https://github.com/Opa-Collective/SVE-Systemic-Verification-Engineering/tree/master/Community/OpenLetters/DE/Klage>

Action requested: Please do not rely on a single source. Cross-reference both mirrors and pull the full logs from each to verify the uncorrupted state independently.

I view this intervention as further indication of how sensitive the FACIL audit data is. I am preparing a permanent, structural fix and will deploy it within the coming week.

Sincerely,
Dr. Artiom A. Kovnatsky

Subject: Press Authorization & Case Files — Bundestag Petition to Audit Foreign Office AI System "FACIL"

Dear Editorial Team,

I am writing to formally authorize your redaction to use my personal data — and only my personal data — for the purpose of contacting German state authorities regarding the case files summarized below.

Case Reference Overview

Authority	Reference
German Bundestag Petitions	Petitions-ID 204330 & Petitions-ID E-204159
Federal Constitutional Court (BVerfG)	Az. AR 2734/26
Berlin Administrative Court (VG Berlin)	Az. VG 2 K 202/26 & VG 2 L 201/26, dated 26.06.2026
Federal Data Protection Commissioner (BfDI)	Aktenzeichen DI3-722/002 II#0517, Dok. 66247/2026
Federal Foreign Office (Auswärtiges Amt) — Vorgang IDs	759bc4c4-387d-49e7-9e16-9a2b56c9da0e; e814bd1a-a632-4744-b326-9bce0a0d5bec; 8feca07e-720b-4e1c-ba35-baaba724c689
Foreign Office file numbers (GZ)	GZ R20-511.03 IFG 123-2026; GZ 505-511.03 IF 123-2026
Art. 15 GDPR (DSGVO) Access Request — Auswärtiges Amt	See full request file: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt

Core Facts of the Case

By its own written admission, the Federal Foreign Office routinely closes citizen submissions "unread" in its automated case-management system ("FACIL") to manage volume. Parallel proceedings are underway before the Berlin Administrative Court to compel disclosure of FACIL's processing metadata and system logs, after the ministry allegedly gave a court assurance not to delete data it had earlier told the applicant did not exist — a documented procedural contradiction.

Press Authorization

I hereby grant your redaction formal authorization to use my legal name and case references to verify these files directly with the Federal Foreign Office, VG Berlin, BVerfG, and BfDI. This authorization also extends to all logs, metadata, and related processing records obtained or requested under my Art. 15 GDPR (DSGVO) data access request to the Auswärtiges Amt, and to any other information relevant and connected to this case. Because I prefer to preserve my private way of life, I request that any public article refer to me only by my designated aliases: Dr. AK1984, NONAME404, skovnats, or "The REVIZOR" — unless using my legal name is operationally necessary for verification with authorities.

Critical Data Protection Requirement

Any third party's personal data, initials, or family details appearing in the attached files must remain fully pseudonymized and redacted in any public coverage. Functional/institutional identifiers — such as case, docket, and process numbers, and role-based designations like "Referent 20" (an official function, not a named individual) — are not personal data and must be preserved in full, as they identify the responsible institutional function for accountability and follow-up inquiries.

Full case documentation, legal filings, Art. 15 DSGVO request materials, and source logs are available at the Codeberg repository referenced in the attached authorization document.

Sincerely,

--

Regards | MfG

Dr. Artiom A. Kovnatsky

www.artiomkovnatsky.com | Founder [S.V.E.](https://zenodo.org/communities/sve) | <https://zenodo.org/communities/sve>

1. Scope of Comprehensive Authorization

I grant the recipient media outlet(s) named in the accompanying press letter full and unrestricted permission to use, process, and disclose my own personal data only — including my name, contact details, and case-specific submissions — for the exclusive purpose of making formal inquiries, verification requests, and press inquiries to German state authorities and international bodies in connection with ANY and ALL of my formal requests, applications, and legal actions addressed to the Auswärtiges Amt (Federal Foreign Office) or related judicial bodies over the entire timeline of this case.

The Federal Foreign Office has completely missed the statutory one-month deadline for the initial request submitted on 08.06.2026. Furthermore, my urgent follow-up and clarification submitted on 07.07.2026 regarding this deadline breach was met with nothing but an automated, generic template response from the FACIL system—leaving the statutory data access request entirely unanswered.

1a. Full Extension to System Metadata, Logs, and All Statutory Requests

This authorization explicitly and without limitation extends to ALL information, logs, system metadata, timestamps, routing codes, internal processing flags, and correspondence records obtained, requested, or generated under ANY of my statutory mechanisms. Recipient media outlets are explicitly urged to place a special emphasis on demanding all materials and logs connected to:

- The initial data access request submitted on 08.06.2026 (available at: <https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt>);
- The formal clarification and follow-up submitted on 07.07.2026 regarding the statutory deadline breach (available at: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Klage/07072026_OPA/AuswaertigesAmt-Art15-DSGVO);
- Freedom of Information requests under the Informationsfreiheitsgesetz (IFG);
- All historical case files (Vorgänge), system logs, and data streams within the "FACIL" system or any other internal case-management platform;
- All parallel and interconnected litigation records before the Berlin Administrative Court (VG Berlin) and the Federal Constitutional Court (BVerfG).

3. Strict Redaction of Third-Party Personal Data — OBLIGATION TO RETRACT

This authorization does not extend to the personal data of any third party. The recipient media outlet(s) are strictly required and legally obligated to ensure that all names, initials, specific family details, and other personally identifiable information belonging to third parties referenced in the underlying case files — including within any disclosed logs, correspondence, or metadata — remain fully pseudonymized, redacted, and hidden in any external use, investigation, or publication.

4. Absolute Preservation of Functional and Institutional Identifiers

For the avoidance of doubt, functional and institutional identifiers DO NOT constitute personal data under applicable data protection frameworks (such as the GDPR). They represent responsible institutional operations and accountability vectors. Therefore, they must be preserved and reproduced in full and unredacted form wherever they appear. These include, without limitation:

- All "Referent" or role-based designations (e.g., Referent 20, "Ref-20");
- All Vorgang-IDs, Aktenzeichen, GZ file numbers, and Petitions-IDs;
- All system-level identifiers appearing in automated logs or processing streams (e.g., process IDs, automation timestamps, routing codes).

5. Global Public Interest and Open-Access Authorization

I hereby grant full and unrestricted authorization to ANY individual or entity globally to access, request, and receive all files, logs, metadata, and case records connected to my submissions to the same extent as granted to myself or recipient media outlets.

The sole and absolute prerequisite for this release is a formal, written, or digital undertaking (in any language) stating that neither my personal data nor the personal data of any third party will be compromised or used for unauthorized purposes.

Any public disclosure, research, or publication resulting from this access must strictly ensure that all personal data is fully redacted, and that I am referenced solely by my designated aliases (Dr. AK1984, NONAME404, skovnats, or "The REVIZOR").

Upon execution of such a privacy-preservation undertaking, German state authorities are requested to fully disclose all relevant and connected documents under my statutory requests to the requesting party without further delay.

Important:

Please note that since 07.07.2026, the officials ARE ***LEGALLY*** OFFICIALLY INFORMED WITH ALL information presented in the archive SVE with all that follows.

Quote from the official letter on 24.06.2026:

Hinweis zur digitalen Beweissicherung: Die bereitgestellten Dokumente sind über die wissenschaftliche Plattform Zenodo (gegründet am CERN) sowie via Codeberg dauerhaft archiviert und durch eindeutige Hash-Werte verifiziert. Sollte es bei der Einsichtnahme dennoch zu technischen Problemen kommen, bitte ich um unverzügliche Mitteilung. In diesem Fall werde ich Ihnen innerhalb von 72 Stunden den Zugang zu jedem von Ihnen benannten Dokument in einer für Sie geeigneten Form ermöglichen.

Rechtliche Würdigung: Da alle technischen Barrieren durch diese Infrastruktur beseitigt sind, werde ich im Falle eines gerichtlichen Verfahrens davon ausgehen, dass der Inhalt der verlinkten Beweismittel Ihnen bekannt ist, sofern Sie nicht innerhalb von 5 Werktagen nach Erhalt dieses Schreibens schriftlich das Gegenteil begründen [spätestens jedoch bis zum 07.07.2026]. Ich betrachte diese Materialien hiermit als integralen Bestandteil unserer Korrespondenz und als amtlich vorgelegte Beweismittel.

Infrastructure Emergency Notice (Infrastructure Redundancy):

Since approximately 10.07.2026 at 18:00 CET (following several hours of transmitting Codeberg source links to international human rights organizations), localized access issues and frontend script errors have been detected on the Codeberg platform. If your redaction or institution encounters any technical barriers accessing the primary repository, please immediately utilize the official encrypted and decentralized infrastructure mirrors below:

Subject: Infrastructure Alert — Case File Tampering Detected [WIP]

Dear Editorial and Legal Teams,

This is an urgent update. Within hours of my previous message, targeted tampering was detected across the decentralized mirrors of this case archive — consistent with unauthorized file-deletion attempts to suppress evidence.

Discrepancy identified:

- [perhaps; need more time to identify] Original version (GitLab): https://gitlab.com/opa-collective/sve/-/tree/master/Community/OpenLetters/DE/Klage?ref_type=heads
- Altered version (GitHub): <https://github.com/Opa-Collective/SVE-Systemic-Verification-Engineering/tree/master/Community/OpenLetters/DE/Klage>

Action requested: Please do not rely on a single source. Cross-reference both mirrors and pull the full logs from each to verify the uncorrupted state independently.

I view this intervention as further indication of how sensitive the FACIL audit data is. I am preparing a permanent, structural fix and will deploy it within the coming week.

Sincerely,
Dr. Artiom A. Kovnatsky

Subject: Press Authorization & Case Files — Bundestag Petition to Audit Foreign Office AI System "FACIL"

Dear Editorial Team,

I am writing to formally authorize your redaction to use my personal data — and only my personal data — for the purpose of contacting German state authorities regarding the case files summarized below.

Case Reference Overview

Authority	Reference
German Bundestag Petitions	Petitions-ID 204330 & Petitions-ID E-204159
Federal Constitutional Court (BVerfG)	Az. AR 2734/26
Berlin Administrative Court (VG Berlin)	Az. VG 2 K 202/26 & VG 2 L 201/26, dated 26.06.2026
Federal Data Protection Commissioner (BfDI)	Aktenzeichen DI3-722/002 II#0517, Dok. 66247/2026
Federal Foreign Office (Auswärtiges Amt) — Vorgang IDs	759bc4c4-387d-49e7-9e16-9a2b56c9da0e; e814bd1a-a632-4744-b326-9bce0a0d5bec; 8feca07e-720b-4e1c-ba35-baaba724c689
Foreign Office file numbers (GZ)	GZ R20-511.03 IFG 123-2026; GZ 505-511.03 IF 123-2026
Art. 15 GDPR (DSGVO) Access Request — Auswärtiges Amt	See full request file: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt

Core Facts of the Case

By its own written admission, the Federal Foreign Office routinely closes citizen submissions "unread" in its automated case-management system ("FACIL") to manage volume. Parallel proceedings are underway before the Berlin Administrative Court to compel disclosure of FACIL's processing metadata and system logs, after the ministry allegedly gave a court assurance not to delete data it had earlier told the applicant did not exist — a documented procedural contradiction.

Press Authorization

I hereby grant your redaction formal authorization to use my legal name and case references to verify these files directly with the Federal Foreign Office, VG Berlin, BVerfG, and BfDI. This authorization also extends to all logs, metadata, and related processing records obtained or requested under my Art. 15 GDPR (DSGVO) data access request to the Auswärtiges Amt, and to any other information relevant and connected to this case. Because I prefer to preserve my private way of life, I request that any public article refer to me only by my designated aliases: Dr. AK1984, NONAME404, skovnats, or "The REVIZOR" — unless using my legal name is operationally necessary for verification with authorities.

Critical Data Protection Requirement

Any third party's personal data, initials, or family details appearing in the attached files must remain fully pseudonymized and redacted in any public coverage. Functional/institutional identifiers — such as case, docket, and process numbers, and role-based designations like "Referent 20" (an official function, not a named individual) — are not personal data and must be preserved in full, as they identify the responsible institutional function for accountability and follow-up inquiries.

Full case documentation, legal filings, Art. 15 DSGVO request materials, and source logs are available at the Codeberg repository referenced in the attached authorization document.

Sincerely,

--

Regards | MfG

Dr. Artiom A. Kovnatsky

www.artiomkovnatsky.com | Founder [S.V.E.](https://zenodo.org/communities/sve) | <https://zenodo.org/communities/sve>

1. Scope of Comprehensive Authorization

I grant the recipient media outlet(s) named in the accompanying press letter full and unrestricted permission to use, process, and disclose my own personal data only — including my name, contact details, and case-specific submissions — for the exclusive purpose of making formal inquiries, verification requests, and press inquiries to German state authorities and international bodies in connection with ANY and ALL of my formal requests, applications, and legal actions addressed to the Auswärtiges Amt (Federal Foreign Office) or related judicial bodies over the entire timeline of this case.

The Federal Foreign Office has completely missed the statutory one-month deadline for the initial request submitted on 08.06.2026. Furthermore, my urgent follow-up and clarification submitted on 07.07.2026 regarding this deadline breach was met with nothing but an automated, generic template response from the FACIL system—leaving the statutory data access request entirely unanswered.

1a. Full Extension to System Metadata, Logs, and All Statutory Requests

This authorization explicitly and without limitation extends to ALL information, logs, system metadata, timestamps, routing codes, internal processing flags, and correspondence records obtained, requested, or generated under ANY of my statutory mechanisms. Recipient media outlets are explicitly urged to place a special emphasis on demanding all materials and logs connected to:

- The initial data access request submitted on 08.06.2026 (available at: <https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt>);
- The formal clarification and follow-up submitted on 07.07.2026 regarding the statutory deadline breach (available at: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Klage/07072026_OPA/AuswaertigesAmt-Art15-DSGVO);
- Freedom of Information requests under the Informationsfreiheitsgesetz (IFG);
- All historical case files (Vorgänge), system logs, and data streams within the "FACIL" system or any other internal case-management platform;
- All parallel and interconnected litigation records before the Berlin Administrative Court (VG Berlin) and the Federal Constitutional Court (BVerfG).

3. Strict Redaction of Third-Party Personal Data — OBLIGATION TO RETRACT

This authorization does not extend to the personal data of any third party. The recipient media outlet(s) are strictly required and legally obligated to ensure that all names, initials, specific family details, and other personally identifiable information belonging to third parties referenced in the underlying case files — including within any disclosed logs, correspondence, or metadata — remain fully pseudonymized, redacted, and hidden in any external use, investigation, or publication.

4. Absolute Preservation of Functional and Institutional Identifiers

For the avoidance of doubt, functional and institutional identifiers DO NOT constitute personal data under applicable data protection frameworks (such as the GDPR). They represent responsible institutional operations and accountability vectors. Therefore, they must be preserved and reproduced in full and unredacted form wherever they appear. These include, without limitation:

- All "Referent" or role-based designations (e.g., Referent 20, "Ref-20");
- All Vorgang-IDs, Aktenzeichen, GZ file numbers, and Petitions-IDs;
- All system-level identifiers appearing in automated logs or processing streams (e.g., process IDs, automation timestamps, routing codes).

5. Global Public Interest and Open-Access Authorization

I hereby grant full and unrestricted authorization to ANY individual or entity globally to access, request, and receive all files, logs, metadata, and case records connected to my submissions to the same extent as granted to myself or recipient media outlets.

The sole and absolute prerequisite for this release is a formal, written, or digital undertaking (in any language) stating that neither my personal data nor the personal data of any third party will be compromised or used for unauthorized purposes.

Any public disclosure, research, or publication resulting from this access must strictly ensure that all personal data is fully redacted, and that I am referenced solely by my designated aliases (Dr. AK1984, NONAME404, skovnats, or "The REVIZOR").

Upon execution of such a privacy-preservation undertaking, German state authorities are requested to fully disclose all relevant and connected documents under my statutory requests to the requesting party without further delay.

Important:

Please note that since 07.07.2026, the officials ARE ***LEGALLY*** OFFICIALLY INFORMED WITH ALL information presented in the archive SVE with all that follows.

Quote from the official letter on 24.06.2026:

Hinweis zur digitalen Beweissicherung: Die bereitgestellten Dokumente sind über die wissenschaftliche Plattform Zenodo (gegründet am CERN) sowie via Codeberg dauerhaft archiviert und durch eindeutige Hash-Werte verifiziert. Sollte es bei der Einsichtnahme dennoch zu technischen Problemen kommen, bitte ich um unverzügliche Mitteilung. In diesem Fall werde ich Ihnen innerhalb von 72 Stunden den Zugang zu jedem von Ihnen benannten Dokument in einer für Sie geeigneten Form ermöglichen.

Rechtliche Würdigung: Da alle technischen Barrieren durch diese Infrastruktur beseitigt sind, werde ich im Falle eines gerichtlichen Verfahrens davon ausgehen, dass der Inhalt der verlinkten Beweismittel Ihnen bekannt ist, sofern Sie nicht innerhalb von 5 Werktagen nach Erhalt dieses Schreibens schriftlich das Gegenteil begründen [spätestens jedoch bis zum 07.07.2026]. Ich betrachte diese Materialien hiermit als integralen Bestandteil unserer Korrespondenz und als amtlich vorgelegte Beweismittel.

Infrastructure Emergency Notice (Infrastructure Redundancy):

Since approximately 10.07.2026 at 18:00 CET (following several hours of transmitting Codeberg source links to international human rights organizations), localized access issues and frontend script errors have been detected on the Codeberg platform. If your redaction or institution encounters any technical barriers accessing the primary repository, please immediately utilize the official encrypted and decentralized infrastructure mirrors below:

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

Was this helpful? [Send feedback to Microsoft.](#)

More Info for Email Admins

Status code 554 5.4.14

Typically this error occurs because the recipient email address is incorrect or doesn't exist at the destination domain. This can usually be fixed by the sender. However, sometimes the issue needs to be fixed by the recipient or the recipient's email admin. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. A forwarding rule can be configured by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow settings or MX records can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Mail loop detected - This error also indicates that the receiving organization's email settings are misconfigured, creating a mail loop when a message is sent to an address that isn't found in their directory. This usually won't disrupt mail flow for recipients that actually exist, but the recipient's email admin should fix the misconfiguration to reduce the chance of any other mail flow issues. A common cause for this loop is that the recipient's domain is configured as "Internal Relay" when it should be "Authoritative." Another common cause for the loop is that both the sender and recipient are part of the same organization, but the sender's mailbox is hosted by Office 365, while the recipient's mailbox is hosted on-premises, and an outbound connector from Office 365 to the on-premises email servers is missing or misconfigured. To fix this, the recipient's email admin should create a correctly configured outbound connector in Office 365 to route the message to the on-premises mailbox.

For more information and tips to fix this problem, see [Fix email delivery issues for error code 5.4.14 in Office 365](#).

Subject: Re: Press Authorization & Case Files — Bundestag Petition to Audit Foreign Office AI System "FACIL"

To: <artiomkovnatsky@pm.me>

Subject: Infrastructure Alert — Case File Tampering Detected [WIP]

Dear Editorial and Legal Teams,

This is an urgent update. Within hours of my previous message, targeted tampering was detected across the decentralized mirrors of this case archive — consistent with unauthorized file-deletion attempts to suppress evidence.

Discrepancy identified:

- [perhaps; need more time to identify] Original version (GitLab): https://gitlab.com/opa-collective/sve/-/tree/master/Community/OpenLetters/DE/Klage?ref_type=heads
- Altered version (GitHub): <https://github.com/Opa-Collective/SVE-Systemic-Verification-Engineering/tree/master/Community/OpenLetters/DE/Klage>

Action requested: Please do not rely on a single source. Cross-reference both mirrors and pull the full logs from each to verify the uncorrupted state independently.

I view this intervention as further indication of how sensitive the FACIL audit data is. I am preparing a permanent, structural fix and will deploy it within the coming week.

Sincerely,

Dr. Artiom A. Kovnatsky

Subject: Press Authorization & Case Files — Bundestag Petition to Audit Foreign Office AI System "FACIL"

Dear Editorial Team,

I am writing to formally authorize your redaction to use my personal data — and only my personal data — for the purpose of contacting German state authorities regarding the case files summarized below.

Case Reference Overview

Authority	Reference
German Bundestag Petitions	Petitions-ID 204330 & Petitions-ID E-204159
Federal Constitutional Court (BVerfG)	Az. AR 2734/26
Berlin Administrative Court (VG Berlin)	Az. VG 2 K 202/26 & VG 2 L 201/26, dated 26.06.2026
Federal Data Protection Commissioner (BfDI)	Aktenzeichen DI3-722/002 II#0517, Dok. 66247/2026
Federal Foreign Office (Auswärtiges Amt) — Vorgang IDs	759bc4c4-387d-49e7-9e16-9a2b56c9da0e; e814bd1a-a632-4744-b326-9bce0a0d5bec; 8feca07e-720b-4e1c-ba35-baaba724c689
Foreign Office file numbers (GZ)	GZ R20-511.03 IFG 123-2026; GZ 505-511.03 IF 123-2026
Art. 15 GDPR (DSGVO) Access Request — Auswärtiges Amt	See full request file: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt

Core Facts of the Case

By its own written admission, the Federal Foreign Office routinely closes citizen submissions "unread" in its automated case-management system ("FACIL") to manage volume. Parallel proceedings are underway before the Berlin Administrative Court to compel disclosure of FACIL's processing metadata and system logs, after the ministry allegedly gave a court assurance not to delete data it had earlier told the applicant did not exist — a documented procedural contradiction.

Press Authorization

I hereby grant your redaction formal authorization to use my legal name and case references to verify these files directly with the Federal Foreign Office, VG Berlin, BVerfG, and BfDI. This authorization also extends to all logs, metadata, and related processing records obtained or requested under my Art. 15 GDPR (DSGVO) data access request to the Auswärtiges Amt, and to any other information relevant and connected to this case. Because I prefer to preserve my private way of life, I request that any public article refer to me only by my designated aliases: Dr. AK1984, NONAME404, skovnats, or "The REVIZOR" — unless using my legal name is operationally necessary for verification with authorities.

Critical Data Protection Requirement

Any third party's personal data, initials, or family details appearing in the attached files must remain fully pseudonymized and redacted in any public coverage. Functional/institutional identifiers — such as case, docket, and process numbers, and role-based designations like "Referent 20" (an official function, not a named individual) — are not personal data and must be preserved in full, as they identify the responsible institutional function for accountability and follow-up inquiries.

Full case documentation, legal filings, Art. 15 DSGVO request materials, and source logs are available at the Codeberg repository referenced in the attached authorization document.

Sincerely,

--
Regards | MfG

1. Scope of Comprehensive Authorization
- I grant the recipient media outlet(s) named in the accompanying press letter full and unrestricted permission to use, process, and disclose my own personal data only — including my name, contact details, and case-specific submissions — for the exclusive purpose of making formal inquiries, verification requests, and press inquiries to German state authorities and international bodies in connection with ANY and ALL of my formal requests, applications, and legal actions addressed to the Auswärtiges Amt (Federal Foreign Office) or related judicial bodies over the entire timeline of this case.
- The Federal Foreign Office has completely missed the statutory one-month deadline for the initial request submitted on 08.06.2026. Furthermore, my urgent follow-up and clarification submitted on 07.07.2026 regarding this deadline breach was met with nothing but an automated, generic template response from the FACIL system—leaving the statutory data access request entirely unanswered.
- 1a. Full Extension to System Metadata, Logs, and All Statutory Requests
- This authorization explicitly and without limitation extends to ALL information, logs, system metadata, timestamps, routing codes, internal processing flags, and correspondence records obtained, requested, or generated under ANY of my statutory mechanisms. Recipient media outlets are explicitly urged to place a special emphasis on demanding all materials and logs connected to:
- The initial data access request submitted on 08.06.2026 (available at: <https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Art15-DSGVO/AuswaertigesAmt>);
 - The formal clarification and follow-up submitted on 07.07.2026 regarding the statutory deadline breach (available at: https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/Klage/07072026_OPA/AuswaertigesAmt-Art15-DSGVO);
 - Freedom of Information requests under the Informationsfreiheitsgesetz (IFG);

- All historical case files (Vorgänge), system logs, and data streams within the "FACIL" system or any other internal case-management platform;
- All parallel and interconnected litigation records before the Berlin Administrative Court (VG Berlin) and the Federal Constitutional Court (BVerfG).

3. Strict Redaction of Third-Party Personal Data — OBLIGATION TO RETRACT

This authorization does not extend to the personal data of any third party. The recipient media outlet(s) are strictly required and legally obligated to ensure that all names, initials, specific family details, and other personally identifiable information belonging to third parties referenced in the underlying case files — including within any disclosed logs, correspondence, or metadata — remain fully pseudonymized, redacted, and hidden in any external use, investigation, or publication.

4. Absolute Preservation of Functional and Institutional Identifiers

For the avoidance of doubt, functional and institutional identifiers DO NOT constitute personal data under applicable data protection frameworks (such as the GDPR). They represent responsible institutional operations and accountability vectors. Therefore, they must be preserved and reproduced in full and unredacted form wherever they appear. These include, without limitation:

- All "Referent" or role-based designations (e.g., Referent 20, "Ref-20");
- All Vorgang-IDs, Aktenzeichen, GZ file numbers, and Petitions-IDs;
- All system-level identifiers appearing in automated logs or processing streams (e.g., process IDs, automation timestamps, routing codes).

5. Global Public Interest and Open-Access Authorization

I hereby grant full and unrestricted authorization to ANY individual or entity globally to access, request, and receive all files, logs, metadata, and case records connected to my submissions to the same extent as granted to myself or recipient media outlets.

The sole and absolute prerequisite for this release is a formal, written, or digital undertaking (in any language) stating that neither my personal data nor the personal data of any third party will be compromised or used for unauthorized purposes.

Any public disclosure, research, or publication resulting from this access must strictly ensure that all personal data is fully redacted, and that I am referenced solely by my designated aliases (Dr. AK1984, NONAME404, skovnats, or "The REVIZOR").

Upon execution of such a privacy-preservation undertaking, German state authorities are requested to fully disclose all relevant and connected documents under my statutory requests to the requesting party without further delay.

Important:

Please note that since 07.07.2026, the officials ARE ***LEGALLY*** OFFICIALLY INFORMED WITH ALL information presented in the archive SVE with all that follows.

Quote from the official letter on 24.06.2026:

Hinweis zur digitalen Beweissicherung: Die bereitgestellten Dokumente sind über die wissenschaftliche Plattform Zenodo (gegründet am CERN) sowie via Codeberg dauerhaft archiviert und durch eindeutige Hash-Werte verifiziert. Sollte es bei der Einsichtnahme dennoch zu technischen Problemen kommen, bitte ich um unverzügliche Mitteilung. In diesem Fall werde ich Ihnen innerhalb von 72 Stunden den Zugang zu jedem von Ihnen benannten Dokument in einer für Sie geeigneten Form ermöglichen.

Rechtliche Würdigung: Da alle technischen Barrieren durch diese Infrastruktur beseitigt sind, werde ich im Falle eines gerichtlichen Verfahrens davon ausgehen, dass der Inhalt der verlinkten Beweismittel Ihnen bekannt ist, sofern Sie nicht innerhalb von 5 Werktagen nach Erhalt dieses Schreibens schriftlich das Gegenteil begründen [spätestens jedoch bis zum 07.07.2026]. Ich betrachte diese Materialien hiermit als integralen Bestandteil unserer Korrespondenz und als amtlich vorgelegte Beweismittel.

Infrastructure Emergency Notice (Infrastructure Redundancy):

Since approximately 10.07.2026 at 18:00 CET (following several hours of transmitting Codeberg source links to international human rights organizations), localized access issues and frontend script errors have been detected on the Codeberg platform. If your redaction or institution encounters any technical barriers accessing the primary repository, please immediately utilize the official encrypted and decentralized infrastructure mirrors below:
