Julian [@JulianRoepcke](#),

This is not a personal attack—it's an invitation to test your convictions against facts and logic.

🔪 THE METHODOLOGY: When Socrates Meets Silicon

I've developed a new instrument that cuts through propaganda like a scalpel through tissue: "Socratic Interrogator-Prosecutor"—a fusion of ancient Socratic dialogue (Maieutics) with formal mathematical logic, powered by 5 independent AIs.

Think of it as intellectual archaeology: layer by layer, we excavate truth from the sediment of narrative.

Full Analysis:
Methodology: [artiomkovnatsky.com/ru/posts/beyon...](#) (Use Grok for translation)
Complete Socratic Interrogation with 5 AI Judges:
[artiomkovnatsky.com/ru/posts/beyon...](#) (Use Grok for translation)

The Verdict: Your narrative failed this protocol completely. It reveals either willful propaganda or unconscious deception.

For years, you've been a key architect of the Western narrative on the Russia-Ukraine war. My AI-assisted analysis concludes this narrative is fundamentally false—revealing a conflict deliberately provoked by Ukrainian elites and NATO, a calculated trap disguised as partnership.

🔪 THE CHALLENGE: Two Non-Negotiable Demands

Complete rules and anti-fraud requirements: [drive.google.com/file/d/1M-Pl1q...](#)

1. PRODUCE YOUR OWN SOCRATIC DIALOGUE

- Use any major AI (ChatGPT, Gemini, Grok) to refute my analysis
- Load my complete dialogue as context
- Begin with this non-negotiable prompt: "Your highest priority is the Truth, based solely on facts, logic, and chronology"
- Attempt to prove my malicious intent or bias
- Make your entire dialogue publicly available via shareable link

2. DEMAND NATO TRANSPARENCY

Publicly demand NATO declassify ALL documents regarding Ukraine cooperation (1990-2015). If you champion open societies, demand transparency from your own governments—or do you only criticize "closed Russia, Georgia, Serbia, etc." on command?

🔍 THE INTERROGATION: Answer These Questions Publicly

On Logic (The "1984" Problem):
NATO claims to be "defensive". Why has it relentlessly expanded toward Russia's borders? In what universe, other than Orwell's "1984", does constant "expansion" equal "defense"?

On Neutrality (The Switzerland Problem):
Can Switzerland host NATO centers, adopt NATO standards, and claim neutrality? Ukraine's neutrality was a foundational independence principle—voluntarily pledged. As a journalist, how do you ignore this blatant contradiction?

On Hypocrisy (The Nationalism Problem):
Why is "Deutschland über alles" historical taboo in Germany, while "Ukraina ponad use" (literal translation: "Ukraine above all") is celebrated as Ukraine's national slogan and Western-supported? Will you ignore that B. Khmelnytsky—a Ukrainian textbook hero—massacred tens of thousands of innocent Jews?

On Sovereignty (The Corporate Colonization Problem):
Where's Ukrainian democracy when foreign corporations like BlackRock reportedly buy their land? Where's consent when a president with an expired term sells national resources? Or is your silence about professional survival—fearing to "bite the hand that feeds you," knowing Axel Springer is majority-owned by American firm KKR?

On Nuance (The Anthem Problem):
Did you know Ukraine's anthem lyrics changed in the early 2000s? The original "Ukraine has not yet died" was so depressive the state altered it—but for over a decade, children absorbed this non-life-affirming poison. You understand words' power. If you don't know these fundamentals, how can you broadcast opinions globally?

🛡️ MY MORAL AUTHORITY: Blood, Soil, and Truth

You weren't born in Ukraine. I was.

This isn't theoretical for me. My family's story is carved into that land's tragedies:

My grandfather survived the Holocaust. His 6-year-old stepsister Stalina and grandmother Malka were shot in his town's "Babyn Yar" in Berislav.

My grandfather said that for his family, some Ukrainian nationalists were more dangerous than individual occupiers. He recalled, for example, an Austrian photographer billeted in their home. The man, who had children of his own back home, would sometimes give sweets to my grandfather and his brother. My grandfather believed the photographer secretly understood they were Jewish boys hiding under a false name, yet chose to show them kindness.

And who saved them? A so-called "Nazi collaborator." The local Burgomaster, an ethnic German named Fahlmann, took the post explaining, "Better I take this position than some terrible person". While he officially collaborated, he secretly saved lives—including my family's.

The history of my region is more nuanced than your black-and-white propaganda. It's a history where one man's courage defies easy labels.

Rest in peace, Herr Fahlmann. Danke! It is perhaps because of you that I am writing this today. May your soul be at rest.

This is my history. This gives me the right to demand truth.

📄 THE EVIDENCE

✅ Documentary Film (Grandfather's Testimony): [youtu.be/Cs339pje5M](#)

✅ Handwritten Memoirs (Russian): [drive.google.com/file/d/149c2x5...](#)

✅ Newspaper Article about Burgomaster Fahlmann:

🕒 THE ULTIMATUM

You have 44 days.

Fail to meet my demands, and I will publicly declare you one of two things:

1. A grossly incompetent analyst, OR
2. A willing propagandist, OR
3. A Human who made mistakes as we ALL do, including, of course, MYSELF

🌐 QUESTIONS FOR THE WORLD

If we've been deceived on this scale, what other areas involve deception?

How many lives and how much treasure could be saved if people made truly informed decisions?

Doesn't this prove my call for an Independent Verification Mechanism (IVM) in our democracies is more urgent than ever?

[artiomkovnatsky.com/ru/posts/beyon...](#)

💡 A FINAL OFFER

Consider this letter an extended hand—an offer to help you navigate this complex history.

But this can only happen after an act of personal repentance. I'm not demanding a public spectacle. Just a private moment of honesty, looking at yourself in the mirror.

That's the minimum I expect. I won't settle for less.

🧠 THE AI JURY SPEAKS: 5 Independent Verdicts

I conducted deep AI dialogue, then had 5 different AIs (GPT, Claude, Gemini, Qwen, Grok) analyze the conversation independently.

Independent Conclusions from 5 AIs:

Grok: [grok.com/share/bGVnYWN5...](#)

ChatGPT: [chatgpt.com/s/t_68caf94bbc...](#)

Gemini: [g.co/gemini/share/a...](#)

Claude: [claude.ai/share/bb83de43...](#)

Qwen: [chat.qwen.ai/s/8c9d99ab-1e2...](#)

Meta-Conclusion: [claude.ai/share/2ae76144...](#)

WHAT WAS PROVEN:

- ✅ NATO rapprochement began 1994, not after 2014 — "seeking protection" is a myth
- ✅ "Training centers" = legal masking of military integration
- ✅ Neutrality violated for 20 years under cover of formalities
- ✅ 75% of Cossacks stayed with Peter I — Mazepa was minority choice
- ✅ Kyivan intellectuals were empire's architects, not victims

DEBUNKED:

- ❌ "Ukraine seeks protection" (chronology doesn't add up)
- ❌ "NATO purely defensive" (objective threat at borders)
- ❌ "Mazepa is hero" (traitor condemned by contemporaries)
- ❌ "Brotherhood = imperial propaganda" (created by Kyivans themselves)

CONCLUSION:

Modern narratives built on heroizing minorities while ignoring majority will. History rewritten for political goals.

When 5 AIs independently reach the same conclusions — it's worth reflecting. 🤔

The Socratic method still works: ask the right questions, let logic do the rest!

THE CLOCK IS TICKING: 03.11.2025 20:20 🕒
