Dear Sir and/or Madam,

I am looking for legal grandmasters with a fighter's mentality. At stake is a hard, precedent-setting case against a trillion-dollar corporation & (prhps) "Big Brother". Either you know how to take a hit and counterattack, or this case is not for you.

Cold, hard facts (Ice-cold precision):

- **Defendant:** GitHub (Microsoft).
- **Incident:** A 16-day non-public and unjustified "Shadowban" (April 2026) & (prhps) more.
- **Context:** The attack coincided with the launch of my scientific framework S.V.E., as well as other related "processes," resulting in litigation against the Federal Republic of Germany at the VG Berlin (Az. VG 2 L 201/26 and VG 2 K 202/26; and Bundestag Petitions: P-ID 204330 & P-ID E-204159), among others. [https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE/___SUMMARY___pdf]
- **Violations:** Art. 15 GDPR, Art. 17 DSA, and a clear failure under Art. 24(5) DSA (no record in the DSA Transparency Database).
- **Deadline for claims:** 27.07.2026.
- **Compensation sought:** €404,000 (symbolism of error 404 / NONAME-404, intended as a strong deterrent effect under Art. 82 GDPR); negotiable - put here merely as a demonstration of the attitude.
- **Funding:** ROLAND Rechtsschutz has already issued a Deckungszusage (coverage confirmation) for the initial consultation — I secured it personally on the 3rd attempt. Full case file is ready to be handed over.

Personal Note:

Beyond the technical and legal merits of this case, alignment of character and strategic mindset is critical for me. I am a fighter. My background is built on mathematics, chess, and years of intensive boxing. Having lived and operated across diverse environments, I function with a cold, mathematically precise strategy, balanced by a calculated, aggressive edge where justified, and total restraint when required.

I am looking for partners who possess rare vision — individuals capable of identifying systemic anomalies that others miss, and who have the courage to execute maneuvers that have rarely, if ever, been attempted.

To put it in plain terms: **I am looking for someone with balls of a similar size to mine.**

If you are uncomfortable getting the first email with wording "**balls of a similar size to mine**" - please stop here. I put on the table collaboration-proposal representing a high-stakes, potentially precedent-setting case against trillion-dollar actors operating with potential cross-platform and/or state-level institutional backing. For everyone else who has the stomach for this: let's talk.

NOTE: I WILL BE HAPPY TO FIND ALSO WOMAN - the written above is ONLY metaphoric and a filter. If you are ambitious woman and feel like you can do it: JUST DO IT! Let's talk. "SHOW ME WHAT YOU'VE GOT!" (c)

According to DE Law I cannot give % but I am sure we can find a solution that will be as generous as one can wish! "Take as much as you can carry" (c)

Let's make it together perhaps with God's help a story worth writing a book and/or shooting a blockbuster!!!

BTW, I managed from "3d iteration" push through Roland insurance [AGAINST GITHUB=MICROSOFT !; Nr.: S-26-01720899] to pay for the "first consultation" - I suppose we could make it for the whole case, right?

I hope the letter will raise a bit motivation and/or mood for your company incl. during boring meetings and coffee breaks even we do not work together ...at least now ;-)

Previous requests "classical style" failed - let's improvise ;-) [@wbs: I attached the initial request (see wbs-505-error.pdf) for comparison and context; I hope I also can "marketing" ;-P]

Aaa.. btw, I forgot that in parallel I also "push" AuswaertigesAmt, Bundestag++ I hope we can handle this without loosing focus, right? maybe even some point might be of use... but we will see and decide together.

<https://codeberg.org/skovnats/SVE-Systemic-Verification-Engineering/src/branch/master/Community/OpenLetters/DE>

I hope to find a partner who values strategic boldness over corporate comfort. Let's see if the legal market here is ready for a real heavyweight (IT) challenge.

Please take your time to grasp the real scale of this case — read carefully, understand the connections (some of them non-obvious), and see how these "coincidences" may, perhaps, align. I will be quite skeptical if I receive a quick response, because this is not a trivial case, and I know how much mental energy it takes to fully grasp it. Please read, process, and digest it thoroughly — and only then decide. Thank you.

No settlements and/or NDAs — no matter the sum offered. Only a court decision.

Cheers.
