Dear Dr. Kovnatsky,

Thank you very much for your message, and for placing your trust in the German Institute for Human Rights (GIHR).

The case you bring to our attention is very interesting and we would like to thank you for sharing this valuable information.

However, I am sorry to inform you that, while we find the case interesting, the GIHR does not assess individual cases, nor is it mandated to conduct strategic litigation. Therefore, unfortunately, we cannot assist you.

Kind regards
