GitHub Support

Hello,

Our apologies for the delay in getting back to you; we are currently dealing with higher than usual request volumes and are working to respond to priority issues such as yours as quickly as possible.

Sometimes our abuse detecting systems highlight accounts that need to be manually reviewed.

We've cleared the restrictions from your account, so you have full access to GitHub again.

Please let me know if you need anything else.

Best regards,
Charlie

Would you like to provide any additional information or context that would be helpful for our review of your reinstatement request?

My account has been flagged, which has disabled GitHub Copilot and halted all GitHub Actions. This is currently paralyzing my professional development work at stenon.

Please perform an immediate manual review to lift the flag and restore these services.

Thank you.
